The Crazy Scientist Lab

The world around us is intriguing; Children can gain much joy from experimenting with it and learning about it.

These science kits provide children the opportunity to become real researchers for a few hours and to experiment with their own private laboratory.

These science kits come equipped with the necessary equipment and include a clear guide accompanied with photos of the processes as well as fascinating scientific explanations & facts. Parental supervision required for some of the kits.

The Magic Laboratory

Ever wondered how magicians work their magics? Did you know that Science is often at the basis of these tricks? The young explorer will carry out real science experiments such as creating hot dry ice, playing with amazing optical illusions, writing secret messages using Teflon tape and many many more!
Ages: 8+, Barcode: 7290018133743
Item#: 3743

Crazy Egg Science

Ever thought about eggs from a science perspective? Sounds crazy doesn't it... This kit includes an array of science tricks and cool experiments focusing on the spectacular world of eggs such as witnessing an egg getting sucked into a bottle, an egg transforming into a bouncy ball, an optical illusion turning white eggs into silver, and many more!
Age 8+ , Barcode: 7290018133736
Item#: 3736

Glowing Science

Glowing Science is a fascinating kit. Loaded with materials and 18 experiments - guaranteeing hours of FUN, STEM play and learn! Kids will create Glowing Water Gel Beads, Fluorescent Flowers, Glowing Soap Bubbles, Light Printing, Mobiles and much more! Get ready to be addicted to this Crazy Scientist kit.

Ages: 8+

Barcode: 7290016026535,

Item#: 535

Crystal Craze

Learn all you need to know on how to grow different types of funky homemade crystals. In one of our most comprehensive Crazy Scientist LAB kits ever, covering 18 experiments, kids will be working with exciting materials like Copper Sulphate, Alum, Epsom salt & saline solutions, to create hands on real Crystals. How exciting is that!

Ages: 10+

Barcode: 7290016026542,

Item#: 542

Static Electricity

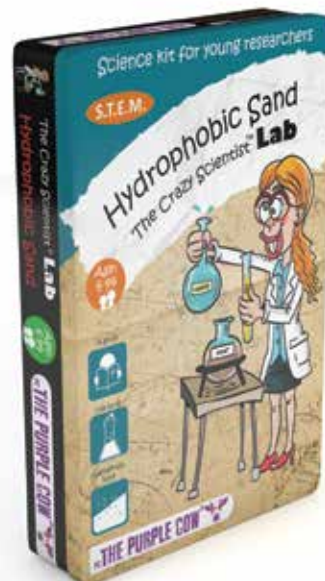

What is "Static Electricity"?

It seems that many people are aware of the concept but don't really know how to scientifically explain it. This kit contains amazing Static Electricity tricks and experiments! Using Static Electricity, kids will separate salt and pepper grains, stick a balloon to the wall, build flying saucers and an electroscope, make Styrofoam balls dance and many more exciting experiments.

Ages: 8+

Barcode: 7290018133408

Item#: 3408

Hydrophobic Sand

It looks like ordinary sea sand and it feels like ordinary sand - but it is anything but ordinary !!!

In this kit we explore the fascinating scientific qualities of hydrophobic sand and it's uses.

We will compare it with regular sand and witness the amazing differences.

Does it really stay dry when taken out from water?!

How does it assist us in prevention of natural disasters?

In a series of compelling experiments we will learn all there is to learn about the fascinating hydrophobic sand.

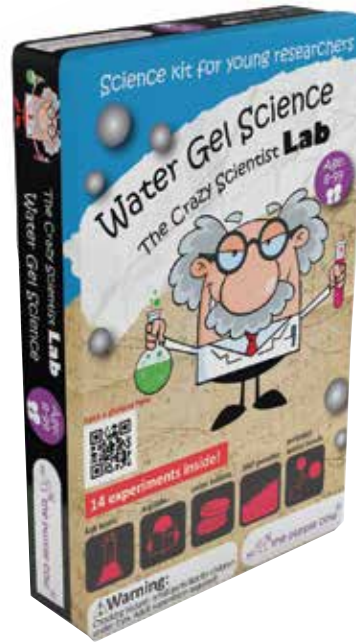

Ages: 6+, Barcode: 7290018133392, Item#: 3392

Young Detectives

This kit focuses on finger prints. Children will experiment with their own fingerprints. They'll learn how to extract fingerprints from various surfaces using different materials. Just like real crime scene investigators, they even create a 3D mold of their finger!

Ages: 8+, Barcode: 7290014368910, Item#: 910

Water Gel Science

This kit focuses on water gels. Children will experiment with the special characteristics of polymers and how they interact with water and other substances. They'll perform fun science tricks such as the "vanishing beads" & the "disappearing water" and they'll even get to create a unique bracelet made of water gel.

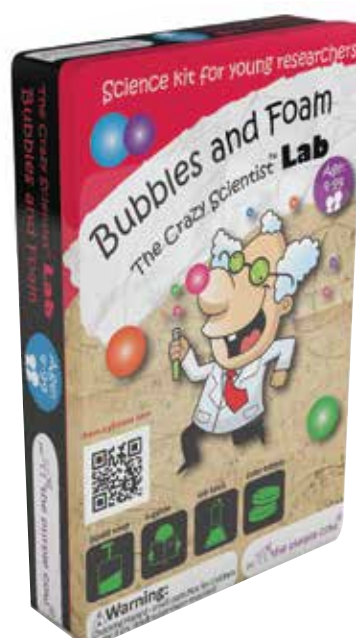

Ages: 8+, Barcode: 7290014368903, Item#: 903

Color Laboratory

This kit focuses on colors. Children as young as 4 will experiment in creating an ice ball with colorful tunnels, creating color solutions and transforming and mixing colors, and even painting with colorful ice! Find all these and more in this kit.

Ages: 4+, Barcode: 7290014368934, Item#: 934

Bubbles and Foam

This kit that focuses on water, colors, and bubbles, making science accessible to children as young as 4! Children will create a soap membrane, a foam beehive, learn to hold a bubble without popping it, create colorful bubbles and even paint with colorful foam. Find all these and more in this kit.

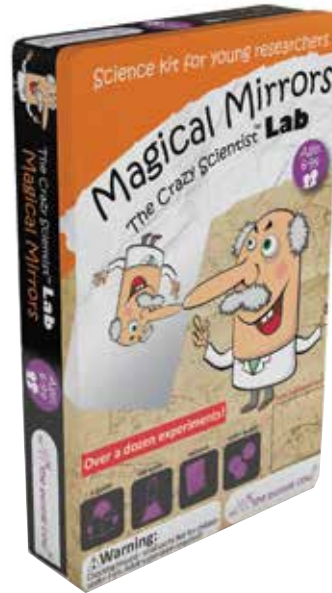

Ages: 4+, Barcode: 7290014368927, Item#: 927

Young Survivor

Darwin once talked about "Survival of the fittest" so you better be fit to survive! A survival situation is not a game when your life is on the line, but it is SUPER COOL to learn survival techniques: learn how to distill, purify and generate water from plants, how to light fire without matches, how to build a solar stove, to build a sundial, a compass, learn Morse code, and much more. Over a dozen experiments in this kit.

Ages: 8+, Barcode: 7290016026191
Item#: 191

Oppenheim Toy Portfolio - Gold Seal Award

Magical Mirrors

Most people don't think twice about mirrors. However, the magical world of mirrors from a science perspective is quite amazing. Over a dozen experiments that will blow your mind – the "Infinite Mirror", the "Disappearing Face", building your own Kaleidoscope to name a few. Looking at mirrors will never feel the same!

Ages: 6+, Barcode: 7290016026184
Item#: 184

Magnetic Wonder

Magnets are not only fun but also intriguing from a real scientific perspective. You'll get acquainted with various magnets including the awesomely strong Neodymium magnet, the weirdest of all "Magnetic Putty", you'll get to build a real compass and create electromagnets and much much more. Over a dozen exciting experiments inside.

Beware, you're about to get magnetized to this kit!
Ages: 8+, Barcode: 7290016026177
Item#: 177

Oppenheim Toy Portfolio - Gold Seal Award

Optical Illusions

When looking at the world around us, our eyes collect information that our brain interprets. But are we really seeing reality as it is? To put it simply: Seeing is (not always) believing! In this kit we will explore different types of fascinating optical illusions. Over a dozen amazing experiments inside.

Ages: 6+, Barcode: 7290016026207

Truth & Dare - The Card Game

'Truth & Dare' is the Purple Cow attempt to 'tame the beast' of the wild classic game and make it safe and FUN to a broader range of audiences. It's the World's first card game to come in a bottle! and a great way to learn more about your friends and family, maybe even more than you ever wanted to know...

We've made 3 versions:

1. The classic 'Sleepover Party' version with all the embarrassing quests and intrusive 'Truth' questions.
2. The bonding 'Family' version – want to see daddy doing hilarious 'Dares', want to hear your kid's dreams and fears? This is just the game for you.
3. The 'Travel' version - what can be more suitable than playing this game near a bonfire outdoors?

doodle a doodle

"The Purple Cow" brings the "Doodles" back to life with a twist! Doodles are nonsense amusing cartoons that were originally created in the early 1950s. The name "doodle" signifies a mix between a "doodle" (a sketch) and a "riddle". In this entertaining doodle game, players need to think creatively and sketch their interpretation of the doodle. If they did a good job in sketching – they win points. A good laugh is guaranteed!

This game assists in developing fine motor skills, creative and "out of the box" thinking as well as sharpening one's sense of humor!
Inside: 108 doodles, erasable tin board, 2 erasable pens, a sand timer & instructions booklet.
