S.T.E.M. - The Crazy Scientist

S.T.E.M. - The Crazy Scientist Lab

The world around us is intriguing; Children can gain much joy from experimenting with it and learning about it. These science kits provide children the opportunity to become real researchers for a few hours and to experiment with their own private laboratory. There are 14 different science kits - each kit covers a topic from A to Z. These science kits come equipped with the necessary equipment and include a clear guide accompanied with photos of the processes as well as fascinating scientific explanations & facts. Parental supervision required for some of the kits.

The Magic Laboratory

Ever wondered how magicians work their magic?
Did you know that Science is often at the basis of these tricks?
The young explorer will carry out real science experiments such as creating hot dry ice, playing with amazing optical illusions, writing secret messages using Teflon tape and many many more!

Ages: 8+, Barcode: 7290018133743, Item#: 3743

Hydrophobic Sand

It looks like ordinary sea sand and feels like ordinary sand - but it is anything but ordinary !!!

In this kit we explore the fascinating scientific qualities of hydrophobic sand and its uses.

We will compare it with regular sand and witness the amazing differences.

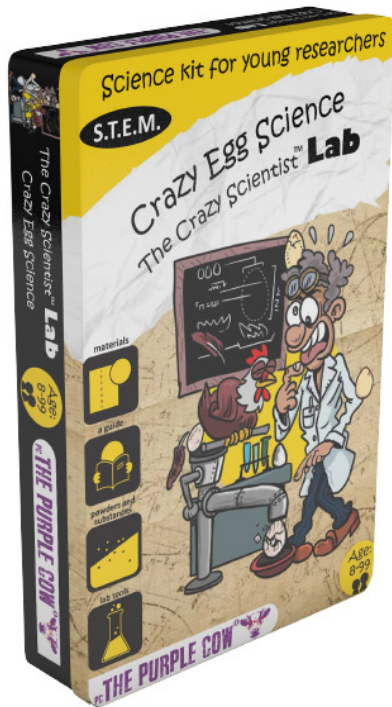

Does it really stay dry when taken out from water?!

How does it assist us in prevention of natural disasters?

In a series of compelling experiments we will learn all there is to learn about the fascinating hydrophobic sand.

Ages: 6+, Barcode: 7290018133392, Item#: 3392

S.T.E.M. - The Crazy Scientist Lab

Crazy Egg Science

Ever thought about eggs from a science perspective? Sounds crazy doesn't it...

This kit includes an array of science tricks and cool experiments focusing on the spectacular world of eggs. Experiments include: witnessing an egg getting sucked into a bottle, an egg transforming into a bouncy ball, an optical illusion turning white eggs into silver, and many more!

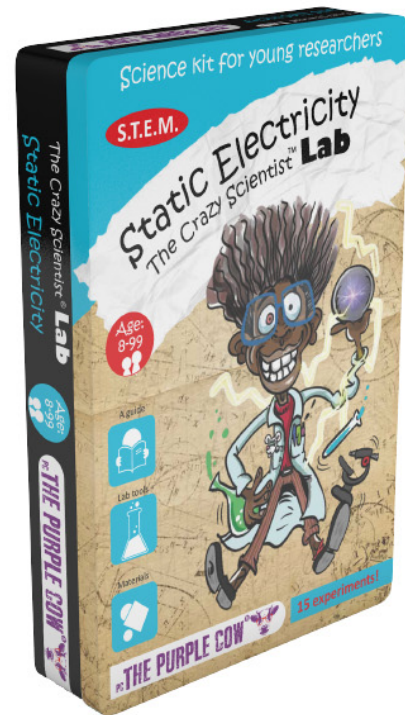

Ages 8+ , Barcode: 7290018133736, Item#: 3736

Static Electricity

What is "Static Electricity"?

It seems that many people are aware of the concept but don't really know how to scientifically explain it. This kit contains amazing Static Electricity tricks and experiments! Using Static Electricity, kids will separate salt and pepper grains, stick a balloon to the wall, build flying saucers and an electroscope, make styrofoam balls dance and many more exciting experiments.

Ages: 8+, Barcode: 7290018133408, Item#: 3408

Young Detectives

Learn the science side of real crime scene investigations, Children will experiment with their own fingerprints. They'll learn how to extract fingerprints from various surfaces using different materials. They even create a 3D mold of their finger!

Ages: 8+, Barcode: 7290014368910, Item#: 910

S.T.E.M. - The Crazy Scientist Lab

Glowing Science

Glowing Science is a fascinating kit. Loaded with materials and 18 experiments - guaranteeing hours of FUN, STEM play and learn! Kids will create Glowing Water Gel Beads, Fluorescent Flowers, Glowing Soap Bubbles, Light Printing, Mobiles and much more!
Ages: 8+, Barcode: 7290016026535, Item#: 535

Crystal Craze

Grow different types of funky homemade crystals. In one of our most comprehensive Crazy Scientist LAB kits ever, covering 18 experiments, kids will be working with exciting materials like Copper Sulphate, Alum, Epsom salt & saline solutions, to create hands on real Crystals. How exciting is that!
Ages: 10+, Barcode: 7290016026542, Item#: 542

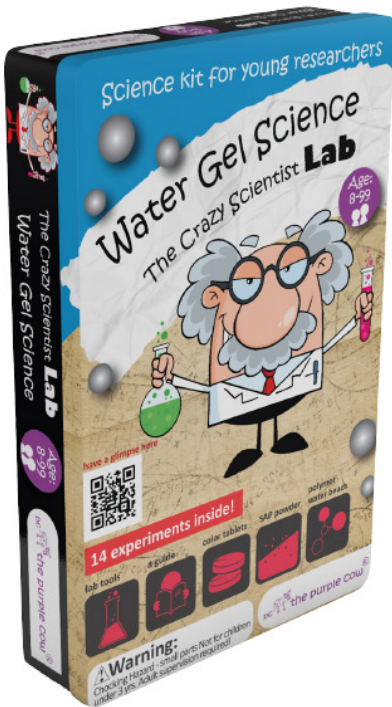

Young Survivor

Darwin once talked about "Survival of the fittest" so you better be fit to survive! A survival situation is not a game when your life is on the line, but it is SUPER COOL to learn survival techniques: learn how to distill, purify and generate water from plants, how to light fire without matches, how to build a solar stove, to build a sundial, a compass, learn Morse code, and much more. Over a dozen experiments in this kit.

Ages: 8+, Barcode: 7290016026191, Item#: 191

S.T.E.M. - The Crazy Scientist Lab

Water Gel Science

This kit focuses on polymers. Children will experiment with the special characteristics of polymers and how they interact with water and other substances. They'll perform fun science tricks such as the "vanishing beads" & the "disappearing water" and they'll even get to create a unique bracelet made of water gel.

Ages: 8+, Barcode: 7290014368903, Item#: 903

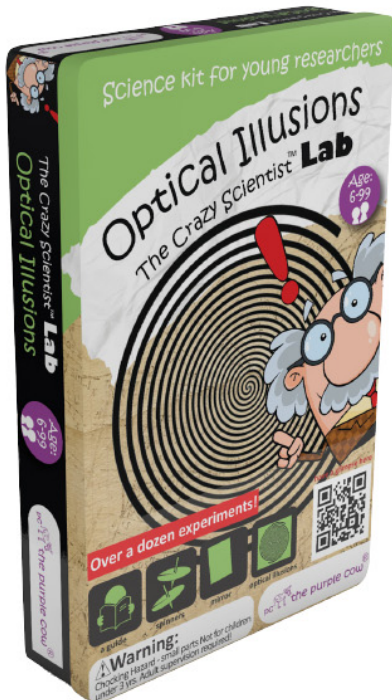

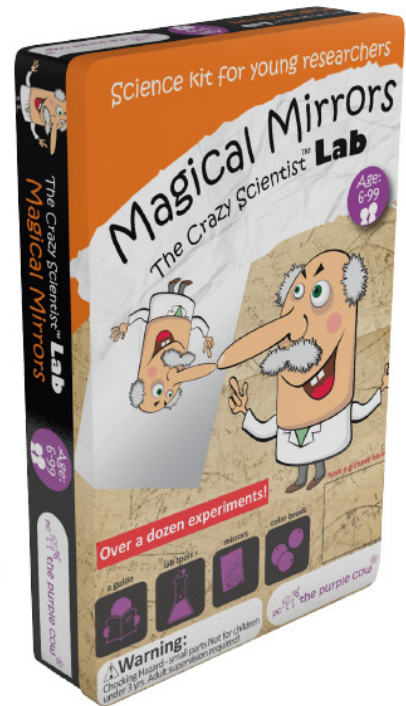

Magical Mirrors

Most people don't think twice about mirrors. However, the magical world of mirrors from a science perspective is quite amazing. Over a dozen experiments that will blow your mind – the "Infinite Mirror", the "Disappearing Face", building your own Kaleidoscope to name a few. Looking at a mirror will never feel the same!

Ages: 6+, Barcode: 7290016026184, Item#: 184

Oppenheim Toy Portfolio - Gold Seal Award

Optical Illusions

When looking at the world around us, our eyes collect information that our brain interprets. But are we really seeing reality as it is? To put it simply: Seeing is (not always) believing! In this kit we will explore different types of fascinating optical illusions.

Over a dozen amazing experiments inside.

**Ages: 6+, Barcode: 7290016026207
Item#: 207**

Oppenheim Toy Portfolio - Gold Seal Award

S.T.E.M. - The Crazy Scientist Lab

Magnetic Wonder

Magnets are not only fun but also intriguing from a real scientific perspective. You'll get acquainted with various magnets including the awesomely strong Neodymium magnet, the weirdest of all "Magnetic Putty", you'll get to build a real compass and create electromagnets and much much more. Over a dozen exciting experiments inside.

Beware, you're about to get magnetized to this kit!

Ages: 8+, Barcode: 7290016026177, Item#: 177

Color Laboratory

This kit focuses on colors. Children as young as 4 years old will experiment in creating an ice ball with colorful tunnels, creating color solutions and transforming and mixing colors, and even painting with colorful ice! Find all these and more in this kit.

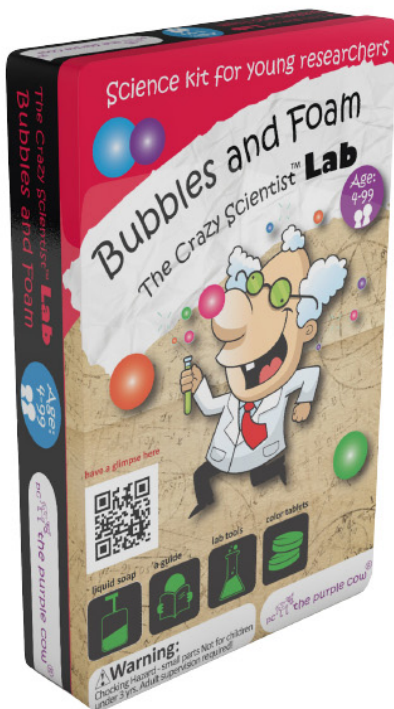

Ages: 4+, Barcode: 7290014368934, Item#: 934

Bubbles and Foam

This kit focuses on water, colors, and bubbles, making science accessible to children as young as 4 years old! Children will create a soap membrane, a foam beehive, learn to hold a bubble without popping it, create colorful bubbles and even paint with colorful foam. Find all these and more in this kit.

Ages: 4+, Barcode: 7290014368927, Item#: 927

S.T.E.M. - The Crazy Scientist Cards

The Crazy Scientist - Activity Cards series are nothing short of a breakthrough in the transfer of S.T.E.M. love to kids. While pricey science kits contain only few experiments - our budget card sets contain 20 exciting experiments in each! The beautiful thing about them is that they all use common household materials. Each experiment contains a real science trick with a simple and yet clever scientific explanation. All science tricks were designed for children aged 6 and above (adult supervision required in some cases) and come with detailed instructions and pictures.

Party & Card Games

Truth & Dare

'Truth & Dare' is the Purple Cow attempt to 'tame the beast' of the wild classic game and make it safe and FUN to a broader range of audiences. It's the World's first card game to come in a bottle and a great way to learn more about your friends and family, maybe even more than you ever wished you knew...

There are 4 titles in this range:

1. The classic 'Sleepover Party' version with all the embarrassing 'Dares' and intrusive 'Truth' questions.
2. The bonding 'Family' version – want to see daddy doing hilarious 'Dares', want to hear your kid's dreams and fears? This is just the game for you.
3. The 'Travel' version - what can be more suitable than playing this game near a bonfire outdoors?
4. The 'Birthday' version - for the perfect birthday party.

doodle a droodle®

"The Purple Cow" brings the "Doodles" back to life with a twist!

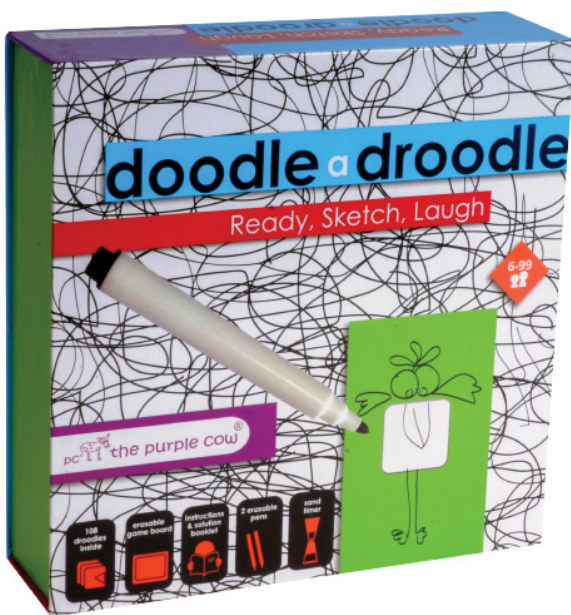

Doodles are nonsense amusing cartoons that were originally created in the early 1950s.

The name "droodle" signifies a mix between a "doodle" (a sketch) and a "riddle".

In this entertaining droodle game, players need to think creatively and sketch their interpretation of the droodle. If they did a good job in sketching – they win points. A good laugh is guaranteed!

This game assists in developing fine motor skills, creative and "out of the box" thinking as well as sharpening one's sense of humor!

Inside: 108 droodles, erasable tin board, 2 erasable pens, a sand timer & instructions booklet.

Ages: 5+, Players 1-10,
Dimensions: H9.8' X L9.8' X W2.7',
H25 X L25 X W7cm
Barcode: 7290016026108 , Item#: 108
